

Thank you for purchasing a *Discgear® 100 auto*. Please take time to get to know your *100 auto* and it's many great benefits. Then fill your *100 auto* with your favorite discs.

## Know your *Discgear® 100 auto*

- 1 Title sheet access bar 
- 2 Disc-selector bar  - Opens unit
- 3 Self-aligning slots - Allow you to easily roll the disc into the slot.
- 4 Disc-selector button - To select a disc, push down and slide the button to the disc number of your choice.
- 5 Hidden lock - The hidden latch is located under the disc-selector bar, in the center. To lock the *100 auto*, slide the hidden latch to the left.
- 6 Title sheet - To access the title sheet, press on the title sheet access bar .
- 7 Title sheet tray
- 8 Disc-numbering pen - Use the enclosed pen to number each disc so the storage slots and the title sheet match. Now you can easily return each disc to it's number slot.

## 100 auto Instructions

- Organize your discs.** Choose one of these methods:
  - 1) Visit [www.discgear.com](http://www.discgear.com) to access **Discware™ Online**, our online service for cataloging and organizing your discs, and printing title sheets.
  - 2) Remove title sheet from the plastic sleeves located in the sheet tray. Write your disc titles directly on the title sheet.
- Access your title sheet.** Press on the title sheet access bar  and the title sheet tray will automatically appear. Insert your title sheet between the plastic sleeves. Make your selection.
- Number your discs.** Use the enclosed disc numbering pen to reference your disc's slot number. Use an alpha-numeric system so you can organize multiple disc-storage units (Ex. A1, B1, C1). *We recommend that you only write on the clear center ring on the front of the disc.*
- Fill your 100 auto.** As you number each disc, place it in the corresponding slot number.
- Select your disc.** Press the disc-selector button and slide it to the desired numbered slot. Release, then press the disc-selector bar  and your *100 auto* automatically retrieves your disc.
- Replace your discs.** Refer to the number on your disc, find the appropriate "self-aligning slot" and roll the disc back into location.

NOTE: Use our Literature Album (not included) to store and organize your DVD & CD literature. For more information: [www.discgear.com](http://www.discgear.com).
