

Thank you for purchasing a Discgear® Selector 50FX / 100FX.
Please take time to get to know your Selector by following these simple instructions. They will help you fill your Selector with your favorite discs.

Know your Selector FX

- 1 Transport handles
- 2 Disc selector bar ▲ (Opens unit)
- 3 Self-aligning slots (To insert disc simply roll it into the numbered slot.)
- 4 Selector button (To select a disc, push down and slide the selector button to the appropriate numbered slot.)
- 5 Lock position (To lock the unit, slide the selector button to the center position indicated by the padlock.)
- 6 Title sheet (To access the title sheet, lift up the clear top cover)
- 7 Disc numbering - Use a permanent marker to number each disc so the storage slots and the title sheet match.

Selector FX Instructions

- A. **Access your title sheet.** Lift up the clear top cover to view the title sheet index. Customize your look with our interchangeable title sheet designs, available online (See B1).
- B. **Catalog your discs.** Choose one of these methods:
 - 1) Visit www.discgear.com to access **Discware™ Online**, our new online service for cataloging and organizing your discs, and printing title sheets. Choose from many designs to customize your look.
 - 2) Remove title sheet from the clear cover located on the top of your Selector FX. Write your CD titles directly on the title sheet.
- C. **Number your discs.** Use a permanent ink marker to reference your disc's slot number. Use an alpha-numeric system so that you can organize multiple Selectors (Ex. A1, B1, C1...) We recommend that you only write on the clear center ring on the front of the disc.
- D. **Fill your Selector.** As you number each disc, place it in the corresponding storage slot number.
- E. **Select your discs.** Slide the selector button to the appropriate numbered slot. Then press ▲ on the disc selector bar and your Selector automatically opens presenting your disc to you.
- F. **Replace your discs.** Refer to the ID number on your disc, find the appropriate "self-aligning slot" and simply roll it into place.
- G. **Carry your Selector.** IMPORTANT - Move the selector button to the center lock position indicated by the padlock. With your Selector locked you may now carry it by using the side transport handles.

Discgear® Products Limited Warranty

What is covered: All parts defective in material and workmanship.

For how long: 90 days from the purchase date.

What we will do: We will, at our sole discretion, repair or replace any defective parts free of charge.
